Sarah Kenney  
Planning & Zoning Coordinator  
Village of Barrington Hills  
112 Algonquin Road  
Barrington Hills, Illinois 60010

December 6, 2010

Dear Ms. Kenny,

In response to your email of December 6<sup>th</sup> and December 3<sup>rd</sup> 2010, with regards to questions about animal control, the following applies:

***"Is there a charge for neutering or spaying?"***

In almost all cases, No. However, if an animal is within it's impound period under the care, custody, and control of Golf Rose for The Village of Barrington Hills, a neutering charge may apply if a medical condition is presented requiring such a procedure.

Example: A dog or cat presents symptoms such as dangerous pregnancy, unknown bleeding, pyometria, or other medical condition indicating alteration may be necessary. In this case, one of our doctors would evaluate the animal and provide a diagnosis, stabilizing care and a recommended course of treatment to The Village of Barrington Hills. That course may include neutering, medication etc. The animal would be stabilized pending the decision of the authority having jurisdiction within Barrington Hills. In most cases, a designated contact would make the call. In other cases where the authority is not available, a Commander, or Sergeant is generally authorized to determine what action shall be taken. Golf Rose will then follow the order of the Barrington Hills decision maker and proceed with the recommended action. State Law provides our Veterinarians with the authority to make the appropriate medical decision in the event an authority at Barrington Hills is unavailable. Golf Rose is required by State statute to provide veterinary care or humane euthanasia when necessary to prevent suffering

Almost all neutering is completed by the state licensed humane society which takes custody of the animal after the initial 7 day hold period.

If a charge is incurred to the Village of Barrington Hills for medical services, the Village is notified prior to the charge occurring unless "exigent circumstances" exist.

***"How much does chipping cost"***

The cost of chipping is \$ 35.50 for residents. Municipalities are not charged for microchipping. The microchip is an AVID Microchip which has the most comprehensive and easy to recognize registry in the world. AVID chips cost more than most but are read by all police department scanners. Other brands of chips may not be read by all departments and the registries are not as easily accessed 24 hours per day.

Our Fee Schedule is as follows:

**Boarding**

Canine	\$12 per day
Feline	\$11 per day

**"Booster" Vaccine**

Feline	\$11 Heska Ultranasal
Canine	\$15 Schering Plough Distemper, Parvo, Parainfluenza, Adenovirus

**Parasite Control**

Nitenpyram	\$5
Selamectin	\$13
Imidacloprid	\$10
Fipornil S- Meth.	\$13

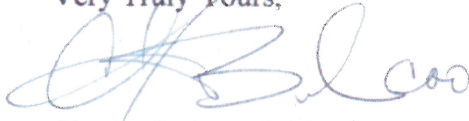

**Euthanasia and Disposal**

Feline	\$28.75	
Canine	\$38.00	
Emerg, Euthansia	\$45.00	
Canine Disposal	\$31.75	DOA
Feline Disposal	\$24.75	DOA

---

Please do not hesitate to inquire further as to animal control procedures.

Very Truly Yours,
